Remarks/Arguments:

The above Amendments and these Remarks are in reply to the Office Action mailed April

14, 2008.

Claims 1-80 are rejected under 35 U.S.C. 102 (b) as being unpatentable over Anuff et al.

(US patent 6,327,628).

Claims 1, 21, 40, 59 and 80, as amended, include the feature that "a descendent of the

first control can override the theme with a second theme such that the descendent of the first

control uses the second theme and any descendent of the descendent of the first control uses the

second theme unless the second theme is overridden at the descendent of the descendent of the

first control".

This feature is not shown or made obvious by the cited prior art. Note that Abel uses

localized web pages; however, the localization of the web page is not done at the level of a

descendent of a first control.

For this reason, the prior art does not make these claims obvious.

In light of the above, it is respectfully submitted that all of the claims now pending in the

subject patent application should be allowable, and a Notice of Allowance is requested. The

Examiner is respectfully requested to telephone the undersigned if he can assist in any way in

expediting issuance of a patent.
